

โอกาสมาแล้ว... สำหรับนักเรียน
โรงเรียนสาธิตจุฬาลงกรณ์มหาวิทยาลัย ฝ่ายมัธยม

The 32nd PNU overseas Volunteer Group

Opportunity to interact with Pusan National university students
and experience Korean culture

Application : until July 20

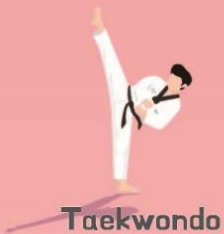

PROGRAM

- Coverdance
- K-pop Hangul
- Korean Art
- Taekwondo
- 3D printer & pen maker

PERIOD

August 3,2023 ~ August 17,2023

- weekdays 16:00 - 19:00
- weekends 09:00 - 12:00

Coverdance

You can learn Korean K-pop dance and anyone can become a K-idol !!

Learning the Famous K-pop Dance

Let's move our bodies while listening to K-pop idol songs! Seventeen-Sonogong, Lesserafim-Eve, Psyche and Blue Beard, 2NE1- I'm the best Remix version, Newjeans-000 to practice dancing. Let's learn one by one and feel interest in dance by creating a stage where everyone can participate.

Learning Korean Random Game Culture

Let's play Korean random games (mafia, I am ground, red ginseng game, etc.) together, memorize names, and have time to get close.

It may look awkward in the mirror at first, but in two weeks, we can all become K-idols. Please look forward to our fun promotions^U^

See you in coverdance class.

K-pop Hangul

Do you know about K-pop? Let's have an exciting Hangul class with K-pop together!! In our class, you can easily learn Hangul with Korean songs, Korean games, Korean food and etc. Let's go~

Hangul(Korean language) Class with K-POP

We would like to introduce Hangul and Korean culture with K-POP. By experiencing various K-POP songs, we will be able to learn Korean much more interestingly.

Fun Activities

You can learn many games that many Koreans enjoy and participate in. Let's experience Korean culture with us. We have prepared a lot of famous games and activities in Korea, so let's join and play together! (Korean quiz, Yutnori, ttakji chigi, 369 game, mugunghwa flowers bloomed, etc)

We've prepared a lot of charming activities. Don't hesitate to apply for Hangul class!
Let's fall in love with Hangul!

See you in Korea K-pop hangul class!

August 3, 2023 ~ August 17, 2023

Korean Art

You can make Korean traditional accessories (Norigae, Binnyeo) and others. You can also experience Korean traditional games.

Korean Traditional accessories

We are going to make Korean traditional accessories. We will make Korean traditional ornamental hairpin (binnyeo) and a norigae key ring using traditional knots.

Korean Traditional Game

You can make Korean traditional play tools and enjoy Korean traditional games with Korean university students. You can experience traditional Korean games (crabbing, dalgona games, and mugunghwa flowers bloomed) in the Netflix series Squid Game.

We're preparing a lot of fun activities.
Let's make lots of good memories during the summer!

Other fun activities are waiting for you.
See you in Korean art class.

August 3, 2023 ~ August 17, 2023

Taekwondo

We will learn Taekwondo, a traditional Korean martial art (Breaking, Taekwondo, and Poomsae), and various recreations are prepared.

Breaking

It refers to the act of breaking a solid object by hitting it with your hands or feet. We will break the pine board with our fists and kicks.

Taekwonmoo

Taekwonmoo is a dance that is made by applying the Poomsae of Taekwondo. We will learn Taekwonmoo to 'BLACKPINK - Kill This Love' song.

Let's learn Taekwondo (Breaking, Taekwonmoo, and Poomsae) together to relieve stress and strengthen each other through games.

Show your potential through our class.
See you in Korea Taekwondo class

August 3, 2023 ~ August 17, 2023

3D Printer

You can make everything you want to make with 3d-Printer.
What you imagine can be made in a day or two. You can also
create a smart farm coded with Arduino.

3D Printing

We will design a cooperative city connecting Bangkok and Busan and print it with a 3D printer. Also Smart Farm, and car Frame will be made by 3D printer, which will be used at Arduino Coding(concerned with line tracer and smart farm) Classes. Your modeling skills will be enhanced through our course.

Arduino

It explains Arduino's introduction and theory and informs the main application fields. After that, they will practice turning on LED, making Korean songs using piezo buzzer, and making Arduino piano. Finally, a smart farm circuit is constructed using all the contents learned and the exhibition is conducted by combining it with the exterior with a 3D printer.

We prepared lots of things
and lots of activities that you guys
can participate. At the end we'll gonna
display the awesome city and smart
farms that we made. Let's make lots of
good memories with us!

We really tried hard to meet you guys so you can look forward to it.
Let's meet in class later!
